MANAGEMENT REPORT

Version: 4166-3420-1438

Management's Responsibility for the Financial Statements.

The accompanying financial statements of School District No. 72 (Campbell River) have been prepared by management in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of British Columbia, supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 72 (Campbell River) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a quarterly basis and externally audited financial statements yearly.

The external auditors, MNP LLP, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of School District No. 72 (Campbell River) and meet when required. The accompanying Independent Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

On behalf of School District No. 72 (Campbell River)

Independent Auditors' Report

To the Board of Education of School District No. 72 (Campbell River) and the Minister of Education:

We have audited the accompanying financial statements of School District No. 72 (Campbell River), which comprise the statement of financial position as at June 30, 2018 and the statements of operations, remeasurement gains and losses, changes in net financial assets (debt) and cash flows and for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for Financial Statements

Management is responsible for the preparation and presentation of these financial statements in accordance with the financial reporting framework based on Section 23.1 of the Budget Transparency and Accountability Act and the Province of British Columbia's Treasury Board Regulations 257/2010 and 198/2011, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present the financial position of School District No. 72 (Campbell River) as at June 30, 2018 and the results of its operations, remeasurement gains and losses, changes in net financial assets (debt) and cash flows and for the year then ended in compliance with, in all material respects, the financial reporting framework based on Section 23.1 of the Budget Transparency and Accountability Act and the Province of British Columbia's Treasury Board Regulations 257/2010 and 198/2011.

Emphasis of Matter

We draw attention to Note 2 which describes the financial reporting framework being followed by School District No. 72 (Campbell River).

Other Matter

We draw attention to the Supplementary Financial Information included in Schedules 1 to 4D which has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Campbell River, British Columbia

NOTE 1 AUTHORITY AND PURPOSE

The School District, established on April 12, 1946 operates under authority of the School Act of British Columbia as a corporation under the name of "The Board of Education of School District No. 72 (Campbell River)", and operates as "School District No. 72 (Campbell River)". A board of education (Board) elected for a four-year term governs the School District. The School District provides educational programs to students enrolled in schools in the district, and is principally funded by the Province of British Columbia through the Ministry of Education. The School District is exempt from tax.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

a) Basis of Accounting

These financial statements have been prepared in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia. This Section requires that the financial statements be prepared in accordance with Canadian public sector accounting standards except in regard to the accounting for government transfers as set out in Notes 2(h) and 2(m).

In November 2011, Treasury Board provided a directive through Restricted Contributions Regulation 198/2011 providing direction for the reporting of restricted contributions whether they are received or receivable by the School District before or after this regulation was in effect.

As noted in Notes 2 (h) and 2(m), Section 23.1 of the Budget Transparency and Accountability Act and its related regulations require the School District to recognize government transfers for the acquisition of tangible capital assets into revenue on the same basis as the related amortization expense. As these transfers do not contain stipulations that create a liability, Canadian public sector accounting standards would require these grants to be fully recognized into revenue. The impact of this difference on the financial statements of the School District is as follows:

Year-ended June 30, 2017 - increase in annual surplus by \$1,790,359 June 30, 2017 - increase in accumulated surplus and decrease in deferred contributions to \$65,843,153.

Year-ended June 30, 2018 – increase in annual surplus by \$3,720,122 June 30, 2018 – increase in accumulated surplus and decrease in deferred contributions to \$65,937,870.

- b) Cash and Cash Equivalents Cash and cash equivalents include cash and highly liquid securities with original terms to maturity of three months or less when purchased.
- c) Accounts Receivable
 Accounts Receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (Continued)

d) Prepaid Expenses

Software licensing and support, memberships, dues and tuition are included as a prepaid expense, stated at acquisition cost and are charged to expense over the periods expected to benefit from it.

e) Tangible Capital Assets

The following criteria apply:

- Tangible capital assets acquired or constructed are recorded at cost. Donated tangible capital assets are recorded at their fair market value on the date of donation.
- Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion.
- Sites and buildings that no longer contribute to the ability of the district to provide services are written-down to residual value.
- Buildings that are demolished or destroyed are written-off.
- Work-in-progress is not amortized until after the asset has been completed or put into use.
- Amortization is recorded on a straight-line basis over the estimated useful life of the asset and commences the year following acquisition. Estimated useful life is as follows:

Buildings 40 years
Furniture & Equipment 10 years
Vehicles 10 years
Computer Hardware 5 years

f) Capital Leases

Leases that, from the point of view of the lessee, transfer substantially all the benefits and risks incident to ownership of the property to the School District are considered capital leases. These are accounted for as an asset and an obligation. Capital lease obligations are recorded at the present value of the minimum lease payments excluding executor costs, e.g., insurance, maintenance costs, etc. The discount rate used to determine the present value of the lease payments is the lower of the School District's rate for incremental borrowing or the interest rate implicit in the lease.

All other leases are accounted for as operating leases and the related payments are charged to expenses as incurred.

g) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services or products to be delivered in a future period. Revenue will be recognized in that future period when the courses, services, or products are provided.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board.

When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2(m).

Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the statement of operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transfer or and eligibility criteria have been met; unless the transfer contains a stipulation that creates a liability, in which case the transfer is recognized as revenue over the period that the liability is extinguished. See note 2 (a) for the impact of this policy on these financial statements.

i) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

Financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and capital lease obligations.

All financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these investments upon initial recognition. Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability.

Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations.

All financial assets except derivatives are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations. A write-down of a portfolio investment to reflect a loss in value is not reversed for a subsequent increase in value.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Financial Instruments (continued)

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

j) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in Note 2(a) requires management to make estimates and assumptions that impact reported amounts for assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to the impairment of assets, rates for amortization, allowance for doubtful accounts, employee incentive bonuses and estimated employee future benefits. Actual results could differ from those estimates.

k) Employee Future Benefits

The School District provides certain post-employment benefits including vested and non-vested benefits for certain employees pursuant to certain contracts and union agreements. The School District accrues its obligations and related costs including both vested and non-vested benefits under employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits.

The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the cost of borrowing. The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime of active employees covered under the plan.

The most recent valuation of the obligation was performed at March 31, 2016 and projected to March 31, 2019. The next valuation will be performed at March 31, 2019 for use at June 30, 2019. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

The School district and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1) Liability for Contaminated Sites

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of contaminated sites is recognized when a site is not in productive use and all of the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standard;
- the School district:
 - o is directly responsible; or
 - o accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability is recognized as management's estimate of the cost of post-remediation including operation, maintenance and monitoring that are an integral part of the remediation strategy for a contaminated site.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) Revenue Recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Contributions received or where eligibility criteria have been met are recognized as revenue, except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year related expenses are incurred,
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased, and
- Contributions restricted for tangible capital assets acquisitions other than sites are recorded as deferred capital revenue and amortized over the useful life of the related assets.

Donated tangible capital assets other than sites are recorded at fair market value and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards, which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met; unless the transfer contains a stipulation that meets the criteria for liability recognition, in which case the transfer is recognized as revenue over the period that the liability is extinguished. See Note 2(a) for the impact of this policy on these financial statements.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is added to the deferred revenue balance.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) Expenditures

Expenses are reported on an accrual basis. The cost of all goods consumed and services received during the year is expensed.

Categories of Salaries

- Principals, Vice Principals, and Directors of Instruction employed under an administrative officer contract are categorized as Principals and Vice Principals.
- Superintendents, Assistant Superintendents, Secretary-Treasurers, Trustees and Other employees excluded from union contracts are categorized as Other Professionals.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever
 possible, expenditures are determined by actual identification. Additional costs
 pertaining to specific instructional programs, such as special and aboriginal
 education, are allocated to these programs. All other costs are allocated to regular
 programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program.
- School-based clerical salaries are allocated to school administration and partially to other programs to which they may be assigned. Principals and Vice-Principals salaries are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual identification of program.

o) Going Concern disclosure

The School District has implemented CPA Handbook Section 1400, General Standards of Financial Statement Presentation. This standard includes requirements for management to assess and disclose an entity's ability to continue as a going concern. Management has made its assessment and concluded there is no issue regarding the School District's ability to continue as a going concern based on the assumption that the current funding levels are maintained and any committed additional future funding is received. If there are significant declines in funding, expenses will be adjusted to match committed funding.

p) Statement of Re-measurement Gains and Losses

A statement of re-measurement gains and losses has not been presented as the District does not hold any financial assets or liabilities that would give rise to re-measurement gains or losses.

q) New Accounting Standards

PS 2200 Related Party Disclosures and PS 3420 Inter-Entity Transactions

Effective July 1, 2017, the School District adopted the recommendations relating to PS 2200 Related Party Disclosures and PS 3420 Inter-Entity Transactions, as set out in the CPA Canada Public Sector Accounting Handbook. Pursuant to the recommendations, the changes were applied prospectively, and prior periods have not been restated.

These new Sections define a related party and establish disclosures required for related party transactions. Disclosure is required when related party transactions have occurred at a value different from that which would have been arrived at if the parties were unrelated, and they have, a material financial effect on the financial statements. They also establish standards on how to account for and report transactions between public sector entities that comprise a government's reporting entity from both a provider and recipient perspective.

There was no material impact on the financial statements of adopting the new Sections.

PS 3210 Assets, PS 3320 Contingent Assets and PS 3380 Contractual Rights

Effective July 1, 2017, the School District adopted the recommendations relating to PS 3210 Assets, PS 3320 Contingent Assets, and PS 3380 Contractual Rights, as set out in the CPA Canada Public Sector Accounting Handbook. Pursuant to the recommendations, the changes were applied prospectively, and prior periods have not been restated.

PS 3210 Assets provides additional guidance to clarify the definition of assets set out in PS 1000 Financial Statement Concepts.

PS 3320 Contingent Assets establishes disclosure standards on contingent assets. PS 3380 Contractual Rights establishes disclosure standards on contractual rights, and does not include contractual rights to exchange assets where revenue does not arise. The main features of this Section are as follows:

- Contractual rights are rights to economic resources arising from contracts or agreements that will result in both an asset and revenue in the future.
- Until a transaction or event occurs under a contract or agreement, an entity only
 has a contractual right to an economic resource. Once the entity has received an
 asset, it no longer has a contractual right.
- Contractual rights are distinct from contingent assets as there is no uncertainty related to the existence of the contractual right.

There was no material impact on the financial statements of adopting the new Sections.

Buildings – work in progress having a value of \$8,516 (2017: \$631,319) have not been amortized. Amortization of these assets will commence the year after the asset is put into service.

NOTE 6 WRITE-OFF/DOWN OF BUILDINGS AND SITES

The Evergreen school building was demolished and written off in June 2018. The historical cost of the building was \$ 279,525 and the accumulated amortization was \$248,460. This resulted in a loss of \$31,065.

NOTE 7 CAPITAL LEASE OBLIGATIONS

The School District has entered into two capital leases for the purchase of equipment. The leases are financed through Stride Capital which charges interest at 6%. The leases expire on February 10, 2022 and June 10, 2022.

Repayments are due as follows:

2019	\$22,833
2020	22,833
2021	22,833
2022	19,028
Total minimum lease payments	87,527
Less amounts representing interest	9,525
Present value of net minimum capital lease payments	\$ 78,002

Total interest on capital leases for the year was \$5,256 (2017: \$963)

NOTE 8 UNEARNED REVENUE

Unearned revenue consists of contributions received for services to be delivered in a future period. Changes in unearned revenue are as follows:

	2018	2017
Balance, beginning of year Changes for the year: Increase:	\$464,618	\$391,816
Tuition fees Decrease:	427,424	464,618
Tuition fees	464,618	391,816
Net changes for the year	(37,194)	72,802
Balance, end of year	\$427,424	\$464,618

NOTE 9 DEFERRED REVENUE

a) Deferred Revenue - Ministry of Education

Deferred revenue includes unspent grants and contributions received that meet the description of a restricted contribution in the Restricted Contributions Regulation 198/2011 issued by Treasury Board, i.e. the stipulations associated with those grants and contributions have not yet been fulfilled. Detailed information about the changes in deferred revenue is included in Schedule 3A.

The special purpose fund represents government grants for aboriginal improvement and early learning, repairs and minor capital improvements to facilities, special education equipment and social equity programs; recorded on the capital funds represents government grants for seismic, building envelope and asset disposal proceeds in use by the Ministry of Education.

	2018 Total	2017 Total
Balance, beginning of year	\$ 759,921	\$ 499,743
Increases:		
Provincial grants - MEd	4,335,253	3,014,638
Investment income	3,205	4,191
Decreases:	4,338,458	3,018,829
Transfers to Revenue	4,740,087	2,758,651
Net Changes for the year	(401,629)	260,178
Balance, end of the year	\$358,292	\$759,921

b) Deferred Revenue - Other

Deferred Revenue – Other recorded in the operating fund represents an aboriginal early learning grant; recorded in the special purpose fund represents school generated funds, community supported social programs and scholarship trust funds; recorded in the capital fund represents community grants to support capital projects.

	2018 Total	2017 Total
Balance, beginning of year	\$1,237,161	\$1,290,367
increases:

Total Deferred Revenue	<u>\$1,542,979</u>	\$1,997,082

NOTE 10 DEFERRED CAPITAL REVENUE

Deferred capital revenue includes grants and contributions received that are restricted by the contributor for the acquisition of tangible capital assets that meet the description of a restricted contribution in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. Once spent, the contributions are amortized into revenue over the life of the asset acquired. Changes to deferred capital revenue are as follows:

	Deferred Cap Revenue	Unspent Def. Cap Revenue	2018 Total	2017 Total
Balance, beginning of year Increases:	\$ 65,843,153	\$ 2,202,479	\$ 68,045,632	\$69,036,584

Balance, end of the year	\$65,937,870	\$2,226,855	\$68,164,725	\$68,045,632

NOTE 11 EMPLOYEE FUTURE BENEFITS

Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance and death benefits. Funding is provided when the benefits are paid and accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District has provided for the payment of these benefits.

The period of amortization is equal to the expected average remaining service lifetime (EARSL) of active employees.

	2018		2017

The significant actuarial assumptions adopted for measuring the School District's accrued benefit obligations are:

	2018	2017
Discount Rate - April 1	2.75%	2.50%
Discount Rate - March 31	2.75%	2.75%
Long Term Salary Growth – April 1	2.50% + Seniority	2.50% + seniority
Long Term Salary Growth - March 31	2.50% + Seniority	2.50% + seniority
EARSL - March 31	9.5	9.5

NOTE 12 EMPLOYEE PENSION PLANS

The school district and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan (jointly trusteed pension plans). The board of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits are based on a formula. As at December 31, 2016 the Teachers' Pension Plan had about 45,000 active members and approximately 37,000 retired members. As at December 31, 2016 the Municipal Pension Plan had about 193,000 active members, including approximately 24,000 from school districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate is then adjusted to the extent there is amortization of any funding deficit.

The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2014, indicated a \$449 million surplus for basic pension benefits on a going concern basis. As a result of the 2014 basic account actuarial valuation surplus and pursuant to the joint trustee agreement, the employer basic contribution rate decreased.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2015, indicated a \$2.224 billion funding surplus for basic pension benefits on a going concern basis. As a result of the 2015 basic account actuarial valuation surplus and pursuant to the joint trustee agreement, \$1.927 billion was transferred to the rate stabilization account and \$297 million of the surplus ensured the required contribution rate remained unchanged.

The School District paid \$5,031,154 for employer contributions to these plans for the year ended June 30, 2018 and \$4,740,239 for the year ended June 30, 2017.

The next valuation for the Teachers' Pension Plan will be as at December 31, 2017, with results available in 2018. The next valuation for the Municipal Pension Plan was at December 31, 2018, with results available in 2019.

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plans record accrued liabilities and accrued assets for each plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plans.

NOTE 14 INTERFUND TRANSFERS

Interfund transfers between the operating, special purpose and capital funds are reported on Schedule 1 (Statement of Changes in Accumulated Surplus (Deficit) by Fund). For the year ended June 30, 2018 transfers were as follows:

- A transfer in the amount of \$265,000 was made from the operating fund to the capital fund for the purchase of local capital assets.
- A transfer in the amount of \$1,014,401 was made from the operating fund to the capital fund for the purchase of capital assets.
- A transfer in the amount of \$22,833 was made from the operating fund to the capital fund for capital lease commitments made during the year.

NOTE 15 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these entities, unless disclosed separately, are generally considered to be in the normal course of operations and are recorded at the exchange amount.

NOTE 16 BUDGET FIGURES

Budget figures included in the financial statements were approved by the Board through the adoption of an amended annual budget on February 27, 2018. The Board adopted a preliminary annual budget on May 16, 2017. The amended budget is used for comparison purposes, as these are based on actual student enrollments. The difference between the two budgets is as follows:

	2018	2018	
	Amended	Preliminary	Difference
Revenues			
Provincial Grants			
Ministry of Education	57,029,400	55,325,029	1,704,371

Increase) Decrease in Net Financial Assets	·		
Debt)	(3,251,139)	1,808,739	(5,059,878)

NOTE 17 CONTINGENT LIABILITIES

Ongoing Legal Proceedings

In the ordinary course of operations, the School District has legal proceedings brought against it and provision has been included in liabilities where appropriate. It is the opinion of management that final determination of these claims will not have a material effect on the financial position or operations of the School District.

NOTE 18 ECONOMIC DEPENDENCE

Operations of the School District are dependent on continued funding from the Ministry of Education and various governmental agencies to carry out its programs. These financial statements have been prepared under the assumption that the School District operates as a "going concern".

NOTE 19 FINANCIAL INSTRUMENTS

All significant financial assets, financial liabilities and equity instruments of the School District are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk.

Credit Risk

Financial instruments that potentially subject the School District to concentrations of credit risk consist primarily of other receivables. The maximum credit risk exposure is \$192,934 (2017 - \$226,840).

However, the School District believes that there is minimal risk associated with the collection of these amounts as they consist primarily of receivables from the Federal and Provincial Government organizations. The School District manages its credit risk by performing regular credit assessments of its customers and provides allowances for potentially uncollectible accounts receivable.

Liquidity Risk

Liquidity risk is the risk that the School District will encounter difficulty in meeting obligations associated with financial liabilities.

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, to always have sufficient liquidity to meet its liabilities when due; under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

NOTE 19 FINANCIAL INSTRUMENTS (continued)

• Foreign Currency Risk

The School District maintains a U.S. bank account and enters into transactions with vendors for supplies denominated in U.S. currency for which the related expenses and accounts payable balances are subject to exchange rate fluctuations. As at June 30, 2018, there was an insignificant balance maintained in the U.S. dollar bank account.

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. In seeking to manage the risks from foreign exchange rate fluctuations, the School District does not hold significant funds in U.S. dollars in order to reduce their risk against adverse movements in the foreign exchange rates.

• Financial Asset Impairment

At each year-end date, the School District is required to evaluate and record any other-than-temporary impairment of its financial assets, other than those classified as held for trading. Accordingly, the School District has compared the carrying value of each of these financial assets to its fair value as at June 30, 2018. No provision for impairment was recorded in the current year, as the fair value of all financial assets tested exceeded their carrying value.

Fair Values of Financial Instruments

The carrying amount of cash, accounts receivable and accounts payable and accrued liabilities approximates their fair value due to the short-term maturities of these items.

Risk Management Policy

The School District, as part of its operations, has established objectives (i.e. hedging of risk exposures and avoidance of undue concentrations of risk) to mitigate credit risk as risk management objectives. In seeking to meet these objectives, the School District follows a risk management policy approved by its Board of Trustees.

NOTE 20 ASSET RETIREMENT OBLIGATION

The District is subject to environmental laws and regulations enacted by the Province and local authorities.

The District currently provides educational programs in 18 schools. It also operates a number of administrative support buildings. Many of these schools and buildings were constructed prior to the implementation of current asbestos removal regulations and asbestos containing materials were utilized in their construction. The nature and extent of asbestos construction material varies from building to building.

Upon retirement of these District buildings, either through demolition or sale, the District may incur removal costs or realize reduced sale proceeds because of the presence of asbestos. The District has made no provision for the financial impact of removal costs or reduced sale proceeds as they cannot be reasonably estimated due to the indeterminate nature and date of potential future retirements.

NOTE 21 EXPENSE BY OBJECT

	Budget 2018	Actual 2018	Actual 2017
Salaries	\$41,819,108	\$41,490,913	\$39,151,687

	\$68,503,570	\$65,765,996	\$62,225,956

NOTE 22 TRUST FUNDS

Funds in the amount of \$1,519,507 (2017 - \$1,458,092) are held in trust for teachers who participate in the payroll savings plan. These funds are included in Cash and Cash Equivalents in Statement 1 for the year ended June 30, 2018, and are to be paid to teachers who participate in the plan through August 31, 2018. The amount payable is included in Salaries and Benefits Payable as stated in Note 4.

Schedule of Changes in Accumulated Surplus (Deficit) by Fund Year Ended June 30, 2018
